

The RESMYLE project

The RESMYLE project is based on two findings: firstly, the difficulties of professional integration of young people in the Mediterranean, in particular for NEETS, are increasing. Secondly, the challenges of environmental protection in the Mediterranean create many new needs in the Mediterranean territories that are largely unfulfilled at the present time, particularly in the lack of skills in some fields: waste sorting, eco-mobility, risk prevention.

Mobilisation of youth organisations in order to raise awareness of Sustainable Development in Tunisia and in all partner countries. The example of the AERE.
